 [LinkedIn](#)

I am a dedicated Software Engineer with a solid foundation in Full-Stack Development, proficient in JavaScript, React, Python, and MySQL. I excel at writing clean, efficient code to build innovative and scalable solutions. With a strong emphasis on collaboration, I bring together technical expertise, clear communication, and analytical thinking to deliver successful project outcomes. Passionate about continuous growth, I'm eager to contribute to impactful projects that make a difference.

### Work Experience

Frontend Web Developer, LegalizeMe, Eldoret

October 2024- November 2024

- Designed and developed a responsive web interface using React, Tailwind CSS, and Vite, ensuring seamless user interaction and accessibility.
- Integrated reusable components for forms, case details, and data visualization, improving development efficiency.
